Practitioner Albums (for which continuous learning points may be earned) and a Category Buying Guide, have been issued alongside the RFO.

The revised streamlined FAR parts will be implemented by issuing model deviation guidance by FAR part on a rolling basis. As these FAR parts are issued, agencies are encouraged to issue class deviations to implement the drafted versions within 30 days. While these revised FAR parts are in effect by class deviation, feedback will be solicited and considered in the rulemaking process to finalize the revisions as regulation.

The official page for RFO is: https://www.acquisition.gov/far-overhaul

DOI is issuing class deviations to implement the revised FAR parts on a rolling basis as they are released by OFPP and the FAR Council. These class deviations will be issued by DOI Acquisition, Arts, and Asset Policies (AAAPs), using a distinct numbering to identify them as RFO class deviations: DOI-AAAP-F0[FAR part].

FAR Part 5 RFO Key Changes:

- Part reorganized and streamlined to align with the acquisition lifecycle (presolicitation, solicitation, and award).
- Tables added to clarify required language and timeframes.
- With rare exception, removes the term “synopsis”.
- Removes the subparts on Release of Information and Publicizing Multi-Agency Use Contracts.
- Removes outdated, redundant, or otherwise unnecessary content, such as publicizing requirements under the American Recovery and Reinvestment Act of 2009 (ARRA).

DIAR Part 1405 RFO Key Changes:

- Removes best practice recommendations for notices that are otherwise covered by the FAR or better suited for Departmental policy or guidance.
- Removes references to congressional notification that is no longer required by the FAR.
- Removes subpart on Release of Information.
- Removes approval requirement for newspaper advertisements.

Action:

The DOI acquisition workforce shall follow the RFO part 5 model deviation text instead of FAR part 5 as codified at 48 CFR Chapter 1. The FAR Council’s RFO part 5 model deviation text is available at acquisition.gov/far-overhaul, and is incorporated into this class deviation.

The DOI acquisition workforce shall follow the DIAR text attached, Attachment 1 – RFO Class Deviation for DIAR Part 1405, instead of part 1405 as codified at 48 CFR Chapter 14.

As a regulation, the FAR, including the deviated version implemented by this class deviation, supersedes any Departmental policy or guidance, such as DOI-AAAPs. Where there is a direct conflict between Department-issued policy or guidance, the FAR shall take precedence. Please
